

Notes

- A side... Look into "Nuke" mini computer
- Computer Interface ^{for size} (may not need b/c Benny laptop)
 - keyboards
 - Mouse
 - Power buttons
 - Type of signal
 - "Quantized data" too vague
 - Kinect
 - Microsoft API info
 - Data rate
 - Packet size
 - Joint info
 - Bluetooth
 - Which standard
 - How packets X ferred
 - Size etc

- Synched Signals

- Type of data

- Digital but

 - * bit rate

 - * packets

 - * size of signal

Dignostic Data

+ Error signal

- Format

- Size

 - * bits

- Speed

 - * bitrate

- System Interface

- All in's & out's

L> Display

⊕ ("Data stream", etc?)

probably more
notes than this
but it's all I
could remember
